

Experienced Full Stack Developer in Labview

Cellenion is a fast-growing French biotechnology company based in Lyon (France). Cellenion develops and commercialises cellenONE®, a breakthrough technology allowing high throughput sorting, isolation and dispensing of a wide variety of single cells and particles. Based on nanovolume dispensing, this open platform is compatible with a wide range of downstream analyses performed at the single cell level which will revolutionise tomorrow's precision medicine market. We are seeking a skilled full stack programmer to develop a software for the next generation cellenONE. The candidate will be responsible for developing the software according to the applications' needs and the users' demands.

Tasks and Responsibilities:

- Develop the software(s) for cellenONE applications
- Work in tight collaboration with the application scientists to ensure the proper product development
- Provide user support
- Elaborate informatic tools for, e.g., data analysis, automation of report generation, further technological development
- Interface with various departments
- Participate to strategic decision for the company's development

All listed tasks and responsibilities are deemed as essential functions to this position; however, business conditions may require reasonable accommodations for additional task and responsibilities.

To qualify, you will have the following skills and experience:

Must:

- Software development (Labview)
- Ability to develop a software according to users' needs and preferences
- Experience in UX and UI
- Be able to communicate development related matters to colleagues/users that are not programmers

Good to have:

- Graphical/Product design skills
- Experience Image analysis
- Experience in Labview, CAD
- Experience in machine learning
- Mechatronics skills
- Understanding of biological/biomedical sciences

To join us you will:

- Be able to work in English
- Have excellent interpersonal skills and be highly collaborative
- Be able to work independently in a fast-paced environment with rapidly changing priorities
- Show good communication, presentation and documentation skills

- Be willing to drive your own project within company's objectives and participate to a human adventure

Salary: According to experience

Cellenion believes that everyone has the ability to make an impact, and we are proud to be an equal opportunity employer committed to providing a dynamic and enjoyable working environment.

If you would like to discuss the position or join our team, please send your resume and CV to contact@cellenion.com.
